- 4. Partnerships and collaborative projects" "ManyOne Group"-- *Ann Forburger*

➤ Discussion and suggestions

# The ABRESE Team Members

- Ana Alfaro-Correa
- Mark Rivera
- Liping Pan
- Jackie Houston
- Qaiser Mukhtar
- Carlon Moore

# ABRESE Team Role/Objectives

## A. Capacity Building

- Provide timely, consistent, science-based, and practical technical assistance
- Build and strengthen capacity in the ABRESE core areas
- Continue our own learning

## B. Applied Science

- Translate science and research into practical knowledge

## C: Policy

- Provide science-based decision support to inform policy

## D: Partnership and Collaboration

- Science of partnership

# Accomplishments/updates - 1

## Capacity Building:

- Updated the Diabetes Indicators and Data Sources Internet Tool (DIDIT)
- DDT MIS-measurement criteria, future directions
- Translating the 10 Essential Public Health Services

## Policy:

- Recommendations for the “Future National Diabetes Objectives”
- Chronic Disease PART
- 2008 Funding Opportunity Announcement

# Accomplishments/updates - 2

Applied science:

Diabetes Primary Prevention Initiative:

- Surveillance
- Intervention and systems modeling

Evaluation:

- NDEP, DPPI,
- Centerwide Evaluation Standards Workgroup
- Proximal indicators
- Evaluation Tool Kit assessment
- Behavioral Research

# Accomplishments/updates - 3

NHANES and BRFSS :

- Prevalence and trends of fair or poor health status
- Prevalence and trends of self-monitoring of blood glucose
- Prevalence of recommended physical activity by states
- Prevalence of multiple-preventive care services
- Evaluating our progress towards National Objectives

Additional data sources: HealthStyles Survey

# Accomplishments/updates - 4

- In collaboration with UT DPCP, attempted state-specific program evaluation based
- 2007 presentations
- Publications
- Data users workgroup
- Staffing

# Communication

- Through your regional team
- Email Qaiser Mukhtar and copy your Regional team
