

DDT Proximal Indicators

Progress and Future Directions

Mark Rivera, Ph.D.

2007 Diabetes Translation Conference

Disclaimer

The findings and conclusions in this presentation have not been formally disseminated by the CDC and should not be construed to represent any agency determination or policy.

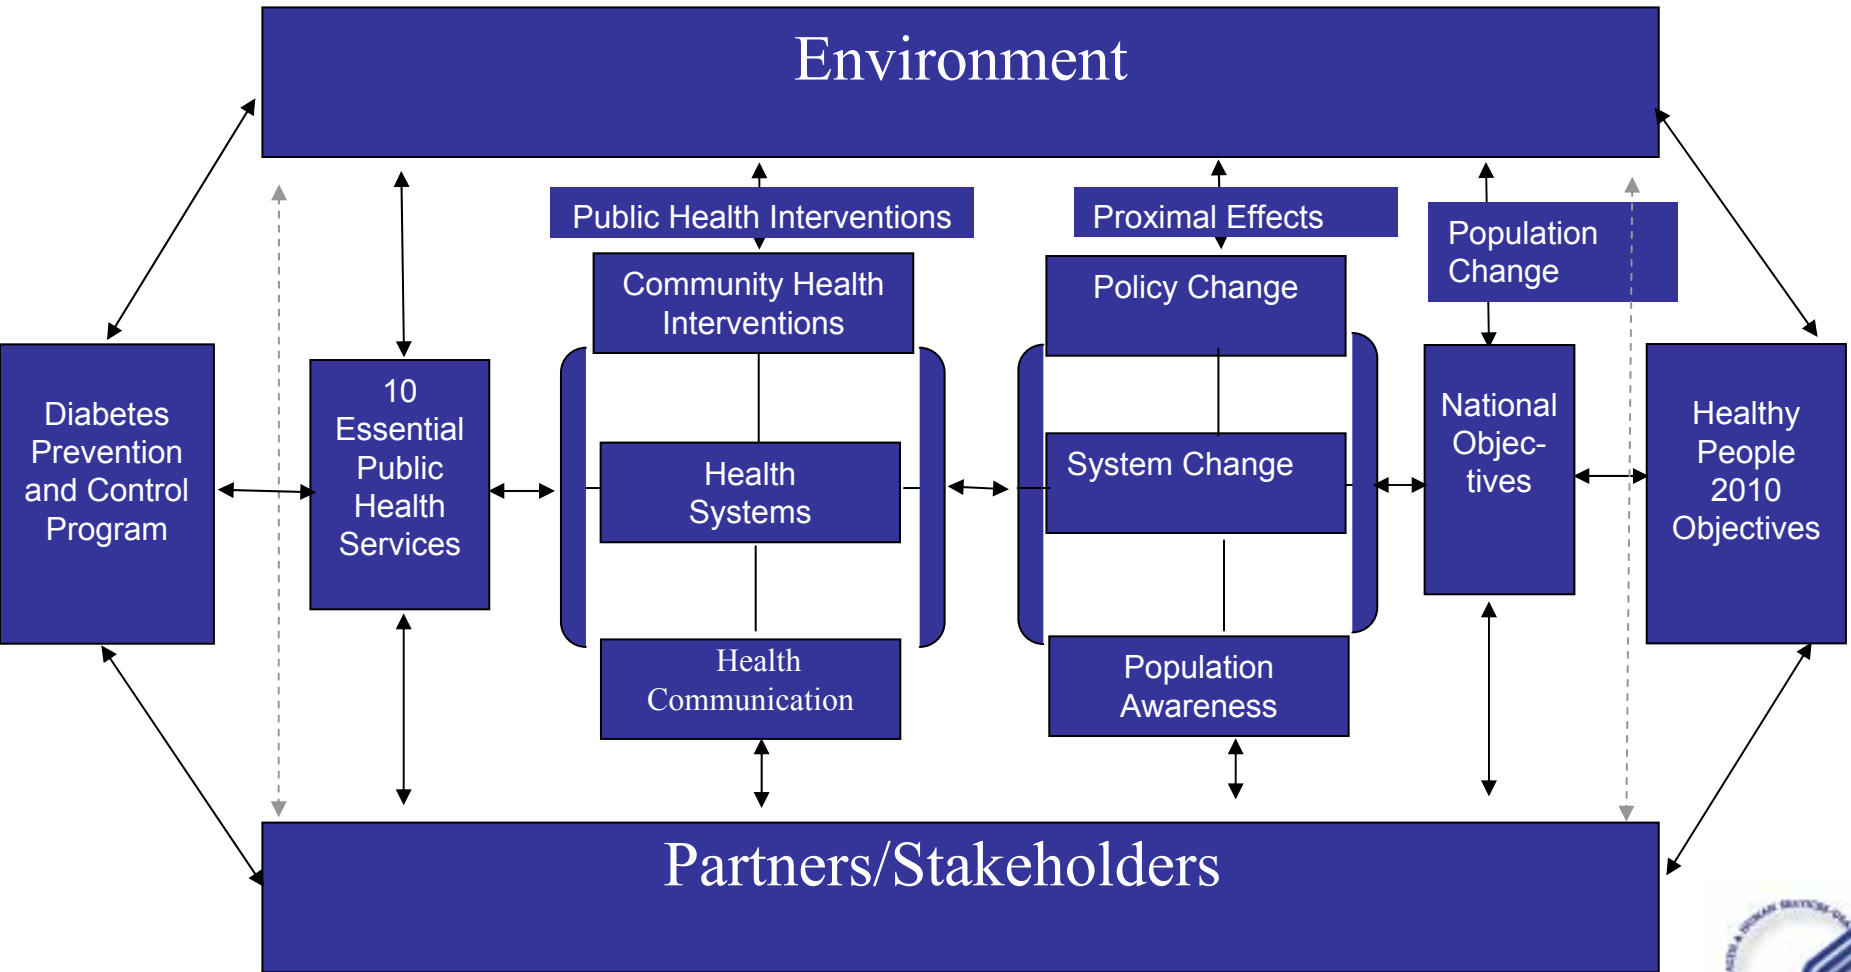

Agenda

- **Initial pool of candidate indicators**
- **Reviewing, selecting, and enhancing indicators**
- **Identifying infrastructure and support needed**

Model of Influence

A Foundation to Build On

- **Case Study**
- **Proximal indicator effort**
- **Work plan templates**
- **Other efforts**

Preparation

- **Pull together indicators from sources and code them for duplication**
- **Select expert panel members**

Initial Panel Tasks

- **Develop a logic model for each “goal area”**
- **Identify candidate indicators for each logic model**
- **Develop review and selection process**
- **Gather indicator ratings and input**

Indicator Ratings (Examples)

- **Resources**
- **Evidence**
- **Utility**

In addition to Ratings

- **Clarify**
- **Merge and delete**
- **Identify and fill gaps**
- **Recommend priorities**
- **Offer technical specifications**
- **Offer recommendations for technical assistance**

Address Recommendations

- Targeted literature review
- Assemble workgroup to address recommendations

Next Steps

- **Refine indicator pool**
- **Identify expert panel**
- **Develop logic models**
- **Align indicators with logic models**
- **Rate and select among indicators**
- **Address gaps and other refinements**
- **Coordinate with other efforts**
